PRELIMINARY AMENDMENT

This is a first submission of items concerning a transmittal under 35 U.S.C. §371. A copy of the international application, as filed, is not required for this application, as the US was designated as the Receiving Office for the PCT filing. As the priority for this application is a GB application, this Preliminary Amendment amends the claims to align them to U.S. patent practice.

Entry of this Amendment is respectfully requested.
